Landing Page Brief

Headline (Primary)

“Helping African mining organizations monitor mineral intelligence, production, and geospatial mining data from one centralized platform.”

Sub-Headline

Monitor mining activity, mineral resources, production trends, and geospatial intelligence across Ghana and Africa through an interactive mining analytics platform designed for governments, mining companies, and researchers.

Social Proof Placeholder

“Be one of our first 50 beta users — free access for founding partners and early research institutions.”

Section 2 — The Problem

Current Challenges

- Fragmented mining data
- Poor visibility into mineral activity
- Limited centralized GIS systems
- Difficult reporting workflows
- Inconsistent regional datasets

Section 3 — Proposed Solution

Platform Features

- ✓ Interactive mining map
 - ✓ Mineral production analytics
 - ✓ Mining concession visibility
 - ✓ Exportable reports
 - ✓ GIS intelligence dashboards
-

Section 4 — Target Users

Designed For

- Mining regulators
 - Mining companies
 - Geological researchers
 - Investors
 - Environmental agencies
-

Section 5 — Early Access

“Join the waitlist for early access, partnership opportunities, and beta testing.”

Ideal Customer Profile (ICP)

Primary ICP:

Government Mining & Regulatory Organizations

ICP Attributes (3–5)

Attribute	Description
Industry	Mining regulation / mineral governance
Geography	Ghana initially, ECOWAS later
Organization Size	Mid-to-large institutions
Pain Point	Fragmented mining intelligence and reporting
Technology Readiness	Already using spreadsheets/manual GIS tools

Secondary ICPs

- Large mining companies
- Geological research institutions
- ESG/environmental organizations
- Mining investment firms

Where Your ICP Already Hangs Out

Online Channels

Platform	Why It Matters
LinkedIn	Mining executives & regulators
WhatsApp groups	Extremely important in Ghana/West Africa
Mining forums	Industry networking
Research communities	Universities & geologists
X/Twitter	Mining & policy conversations
YouTube/Webinars	Industry education

Offline Channels

Place	Why
Mining conferences	Direct access to decision makers
Universities	Research partnerships
Government workshops	Regulatory engagement
Chamber of Mines events	Industry networking
Geological associations	Early adopters
