Absorption Tips for the Alternative Greens

- Moringa Boost: Feel free to dry fresh moringa leaves, crush them into powder, and sprinkle a spoonful over the morning porridges (Hausa Koko or Tom Brown). It adds a major iron boost without triggering an allergic reaction.

- Squeeze the Lime: Because gboma, ayoyo, and waterleaf contain plant-based iron, remember to squeeze fresh lime or lemon juice over your stews just before eating to unlock the iron content.
