DAY 1 | WEDNESDAY 14TH OCTOBER 2026

**Mining The Future:
Unearthing Africa's Full
Mineral Value**

08:00 - 09:00	Delegate Registration
STRATEGIC TRACK - PANTHER STAGE	
09:00 - 10:30	Opening Ceremony Cultural Performance Welcome Remarks & Keynote Addresses
10:30 - 11:30	Ministerial Panel REGIONAL POLICY ALIGNMENT: Mining Code Reforms to Unlock Value Discussions will focus on the need to expand regional collaboration to boost Africa's mineral value chains, exploring intergovernmental policy and how this aligns with attracting investment, supporting local participation and exploring initiatives that enable cross-border trading.
11:30 - 12:15	Leveraging Global M&A's to Secure Investment As African countries pursue resource nationalism, mining companies are increasingly using mergers and acquisitions to secure international investment and safeguard long-term interests. This panel will explore how strategic transactions including joint ventures and equity partnerships, and state participation models , can maintain investor confidence, and align with national priorities.
12:15 - 13:15	LUNCH FOR DELEGATES AND SPEAKERS

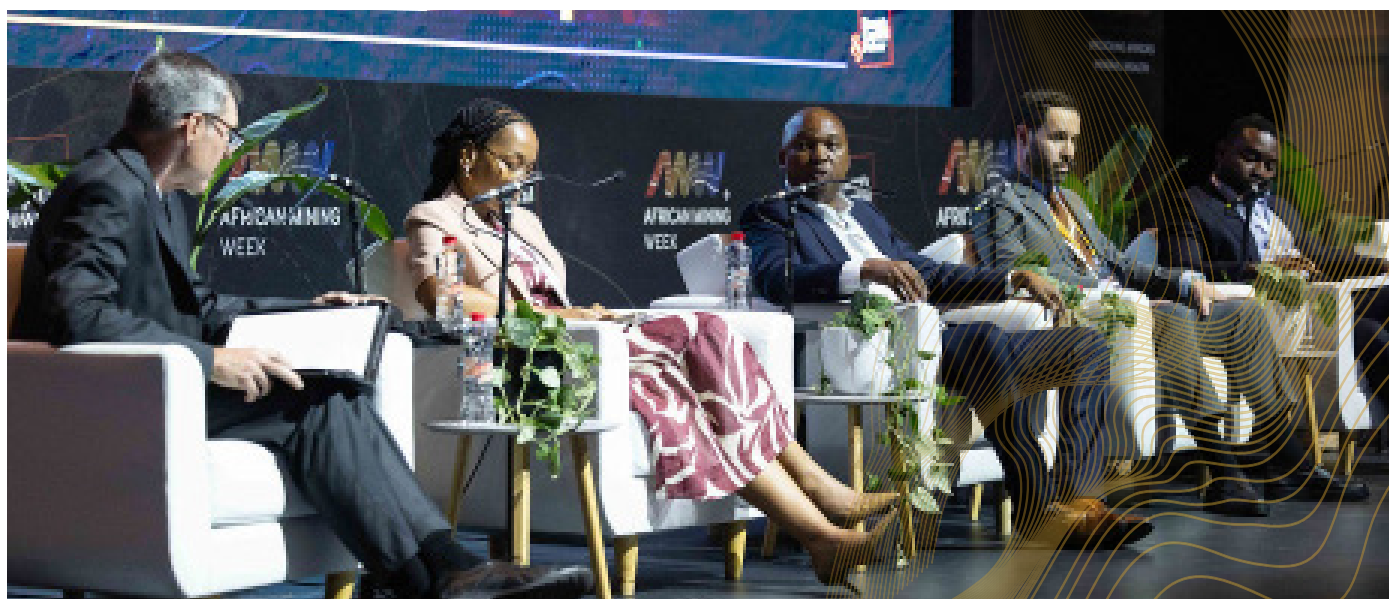

STRATEGIC TRACK - PANTHER STAGE		TECHNICAL TRACK - CHEETAH STAGE	
13:15 - 13:30	Fireside Chat	13:15 - 14:00	Technical Workshop 1
13:30 - 14:30	Scaling Cobalt & Copper Greenfield Investment Production to Meet Global Demand With demand for both copper and cobalt expected to rise by 2050. If nothing changes, we forecast a copper supply deficit. There'll therefore be a critical need for greenfield investment in Africa - to accelerate the exploration and production of copper. This panel explores how investors can leverage regional value chains to boost reliability in their copper and cobalt supply chains.	14:00 - 14:45	Technical Workshop 2

DAY 1 | WEDNESDAY 14TH OCTOBER 2026

**Mining The Future:
Unearthing Africa's Full
Mineral Value**

STRATEGIC TRACK - PANTHER STAGE		TECHNICAL TRACK - CHEETAH STAGE	
14:30 - 15:15	Country Spotlight: Democratic Republic of Congo	14:45 - 15:30	Technical Workshop 3
15:15 - 16:00	Regional Connectivity: Financing Africa's Mineral Infrastructure This discussion addresses rail and port inefficiencies, explores connectivity improvements and how markets can maximise regional corridors to enhance cross-border trade, ensuring the timely delivery of goods.	15:30 - 16:15	Technical Workshop 4

STRATEGIC TRACK - PYRAMID STAGE	
16:00 - 16:45	Country Spotlight: Republic of Egypt
16:45 - 17:00	Closing Remarks End of Conference Day One

DAY 2

DAY 2 | THURSDAY 15TH OCTOBER 2026
**Mining The Future:
Unearthing Africa's Full
Mineral Value**
CLOSED DOOR (BREAKFAST) ROUNDTABLES - FALCON STAGE

08:00 - 09:00	Central Bank Governors, Finance and Investor Roundtable
09:00 - 10:00	Natural Resources Leaders Forum

STRATEGIC TRACK - PANTHER STAGE
AFRICA GOLD FORUM

10:00 - 10:45	Expanding Africa's Gold Output As gold prices remain high amid global uncertainty, African producers have a clear opportunity to increase output, boost foreign exchange earnings, and attract sustained investment. This panel will explore how African gold-producing nations and companies can expand output responsibly and optimise existing and new projects.
10:45 - 11:30	Unlocking Refining Investment With the growing desire to move beyond raw mineral extraction towards local beneficiation, this panel explores how governments, financiers and industry players can unlock investment in gold refining by creating transparent regulatory frameworks, mitigation risks. It will also examine how regional cooperation and public-private partnerships can enable competitive and sustainable gold refining hubs across the continent.
11:30 - 12:15	Accelerating the Formalisation of ASGM Artisanal and small-scale gold mining plays a significant role in the development of many African economies, however, the prevalence of illegal mining means that communities often do not fully benefit from production. This panel will explore initiatives to formalise ASGM, combat illegal mining, and ensure that both communities and countries derive sustainable benefits from mineral production.

ROUNDTABLE - FALCON STAGE

10:00 - 10:45	U.S.- Africa Roundtable
10:45 - 11:30	Saudi Arabia - Africa Roundtable
11:30 - 12:15	Middle East - Africa Roundtable

DAY 2 | THURSDAY 15TH OCTOBER 2026

**Mining The Future:
Unearthing Africa's Full
Mineral Value**

12:15-13:15

Lunch for delegates and speakers

STRATEGIC TRACK - PANTHER STAGE

13:15 - 14:00

Leveraging Advanced Technologies & AI to Transform Mining Practises for Sustainable Growth

Exploring the use of tools such as remote sensors, drones, and data-driven systems in mining operations, this session will demonstrate how advanced technologies & AI are transforming mineral discovery, enhancing operational efficiency, and optimising resource extraction.

14:00 - 14:45

Country Spotlight: Liberia

14:45 - 15:30

Accelerating Mineral Production: The Energy/ Mining Nexus

This panel will explore the need to accelerate the production of graphite, lithium, and uranium - the minerals that are critical for the generation of electricity that powers all African mining operations.

15:30 - 16:15

Country Spotlight: Zimbabwe

TECHNICAL TRACK - CHEETAH STAGE

13:15 - 14:00

Technical Workshop 5

14:00 - 14:45

Technical Workshop 6

14:45 - 15:30

Technical Workshop 7

15:30 - 16:15

Technical Workshop 8

Realigning National and International Goals to Advance Global Investment in Africa's Value Chain

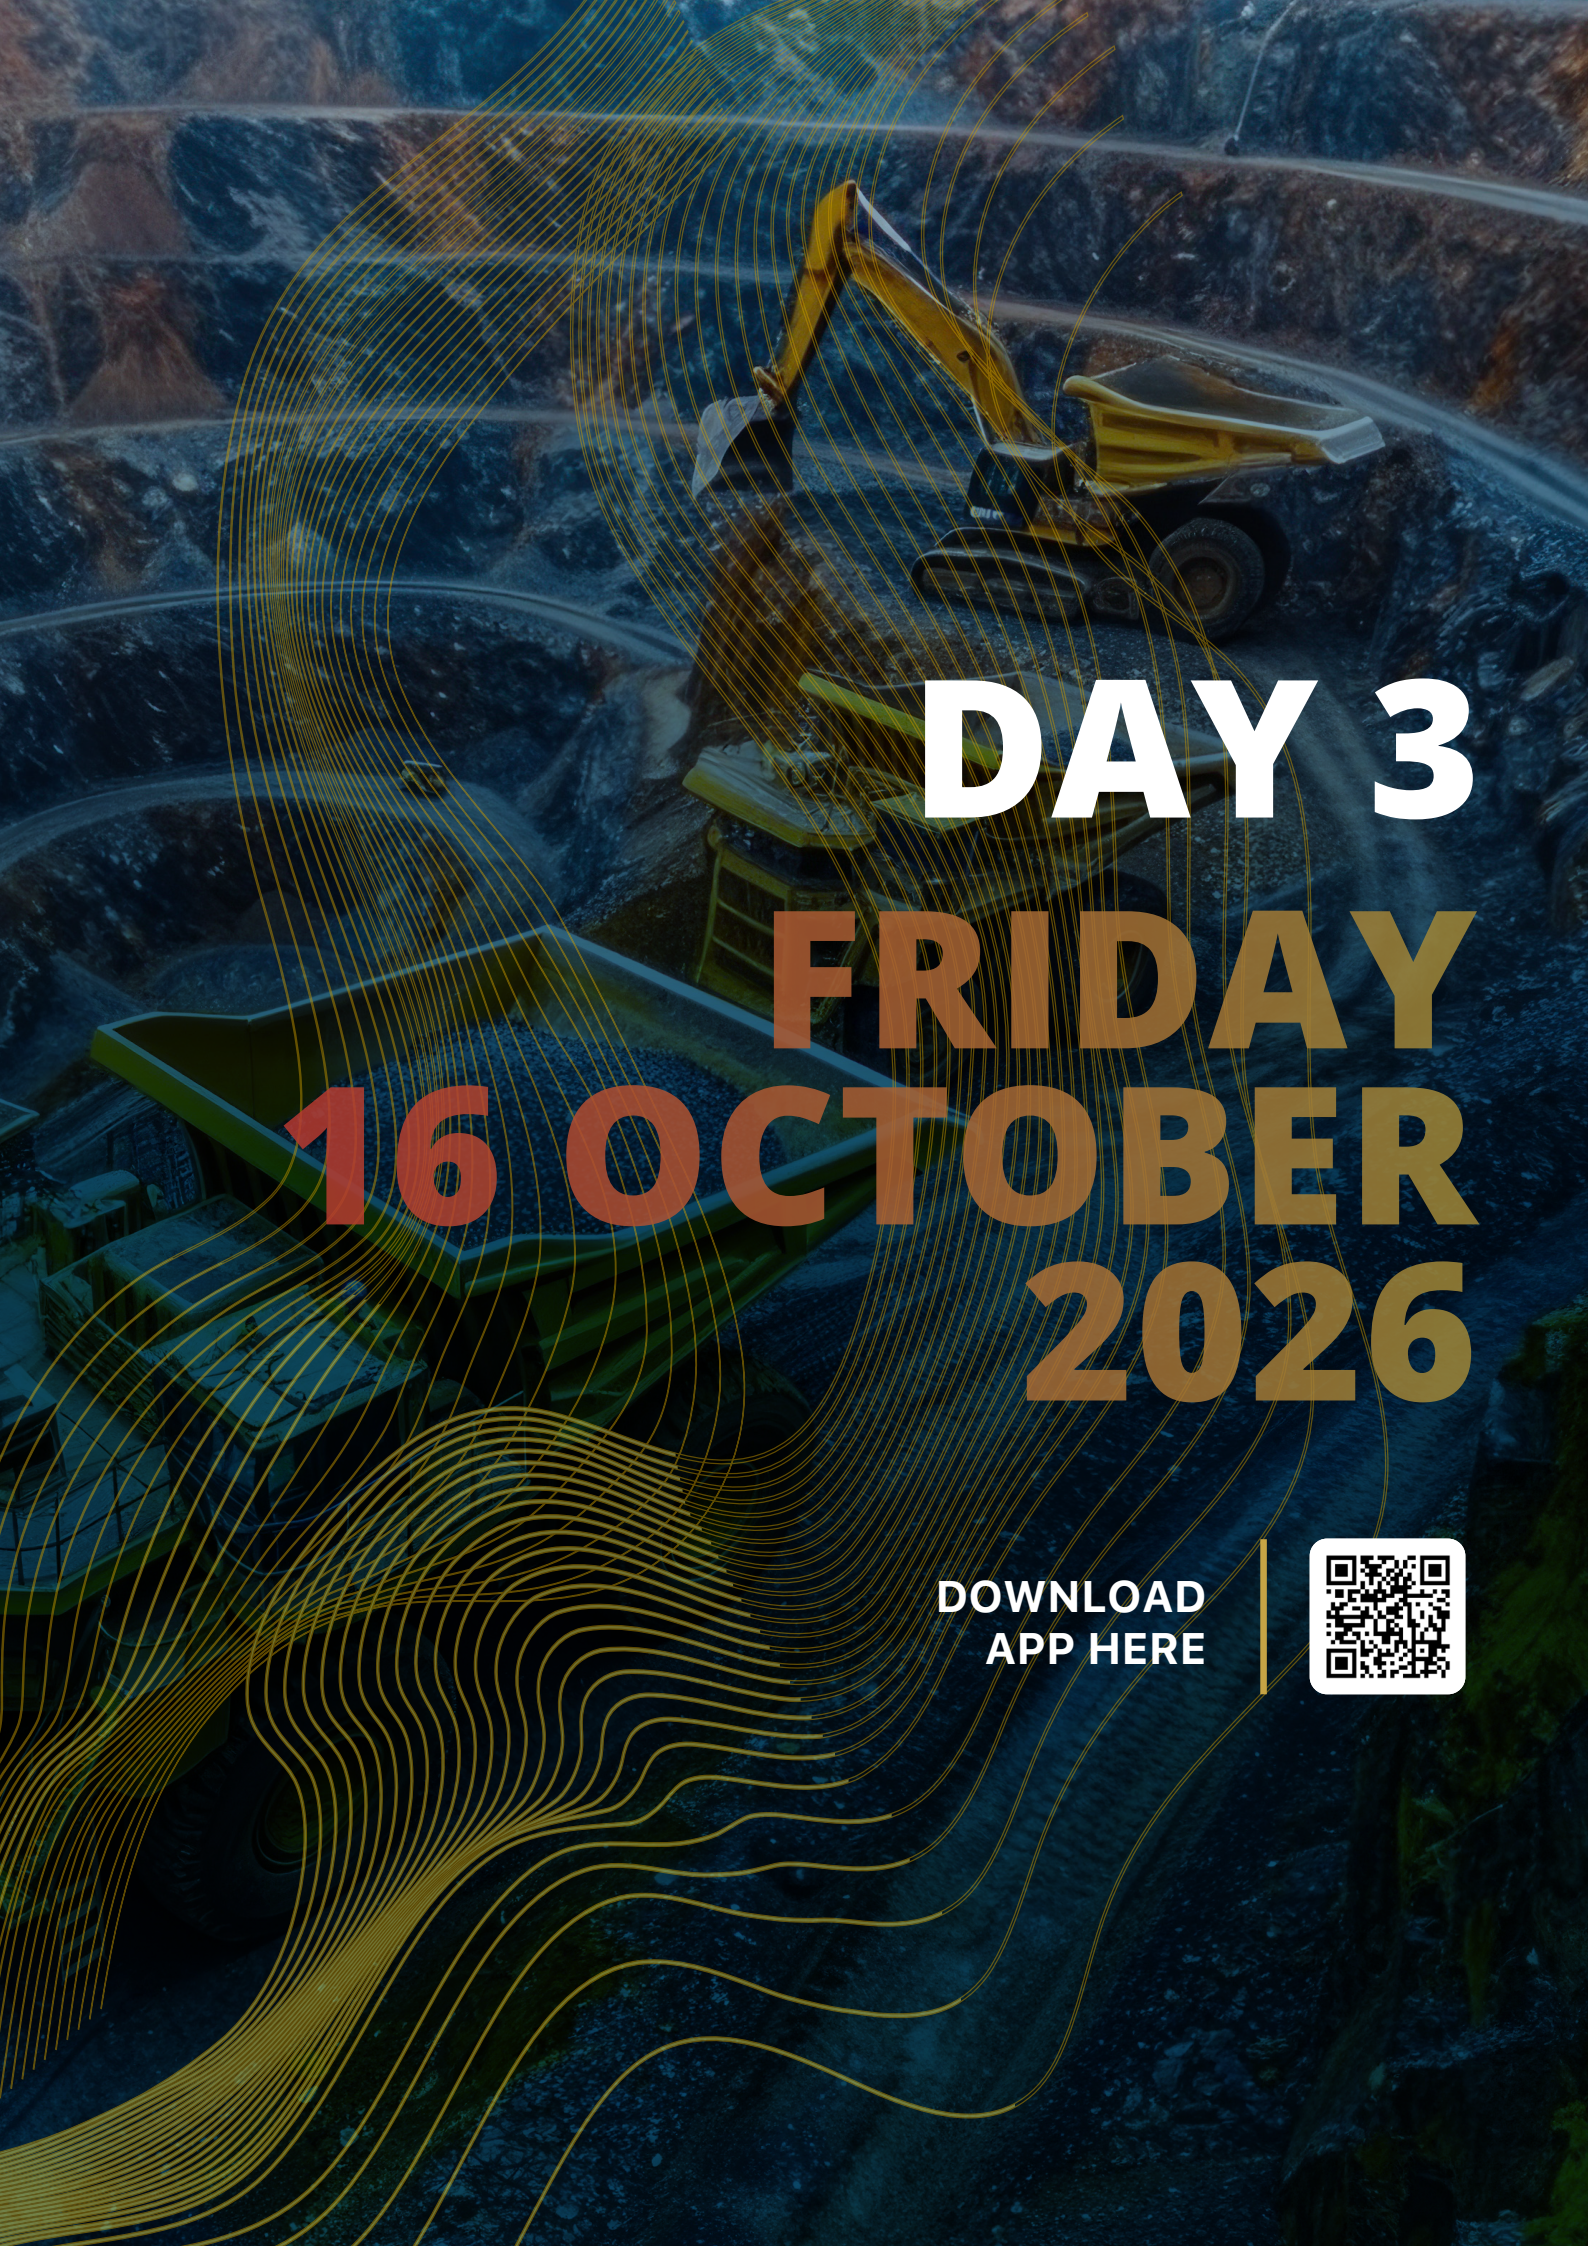

16:15-17:00

This high-level dialogue examines how African mining nations can attract global investment and forge partnerships across the entire mining value chain. It will explore how public-private collaboration can de-risk projects, mobilise capital, and align international investment with national development priorities, ensuring that foreign interest translates into in-country value addition.

17:00 - 17:05

Closing Remarks

End of conference Day Two

DAY 3 | FRIDAY 16TH OCTOBER 2026
**Mining The Future:
Unearthing Africa's Full
Mineral Value**
STRATEGIC TRACK - PANTHER STAGE

09:00 - 09:45	Integrating Indigenous Players in Africa's Global Mineral Value Chain This panel will focus on how mining companies can build strong partnerships with indigenous local businesses and integrate local content into their operations. It will explore initiatives that create procurement opportunities for local companies in the supply chain - including joint ventures with locally owned companies.
09:45- 10:30	Country Spotlight: Central African Republic
10:30 - 11:15	Collaboration for Growth: Unlocking Finance and Scale for Junior Miners Junior mining companies face significant financing constraints, from high upfront capital requirements to limited access to infrastructure and technical expertise. This finance-led panel will examine innovative funding models, strategic partnerships, and risk-sharing mechanisms that can unlock capital, reduce development costs, and accelerate project delivery.
11:15 - 12:00	Country Spotlight: South Sudan
12:00 - 13:00	Lunch for Speakers and Delegates
13:00 - 13:30	Country Spotlight: Uganda
13:30 - 14:15	OEMs at the Core: Powering Africa's Next Mining Cycle Through Technology, Equipment & Services As Africa enters a new era of mineral demand, the role of OEMs within the mining ecosystem is shifting. This panel explores how advanced equipment, digital innovation and specialised technical services are driving greater operational efficiency across the continent.
14:15 - 15:00	Africa's Mining Opportunity in the Geopolitical Sphere Disruptions to global shipping routes are directly increasing energy costs, causing a spike in demand for resources such as coal and uranium. This in turn is creating huge prospects for African miners and resource rich countries to attract global capital to unlock their full potential and enhance supply value chains. This panel will explore how African markets are positioning themselves to capitalize on this demand and the strategic investments by global investors across the continent to strengthen their supply chain.
15:00 - 15:15	Ministerial Fireside Chat
15:15 - 15:20	AMW Closing Remarks
