Strategic Positioning Proposal

African Mining Week 2026

14–16 October 2026
CTICC 2 | Cape Town, South Africa

Prepared for: Smart Innovation Ghana Limited
Prepared by: Energy Capital & Power
Date: 02 July 2026
Proposed Investment : \$14.500

Introduction

African Mining Week 2026, held under the theme “Mining the Future: Unearthing Africa’s Full Mineral Value,” brings together senior government officials, mining executives, investors and solution providers to shape the future of Africa’s mining industry.

This proposal has been carefully curated to maximize Smart Innovation Ghana’s visibility, thought leadership and business development opportunities at African Mining Week 2026. By combining a branded exhibition presence, a dedicated technical workshop and a high-level speaking opportunity, this package provides a strong platform to showcase your expertise, engage with key decision-makers and unlock valuable partnerships across Africa’s mining sector.

Chahinaz Bouarara
International Account Executive

1 – Showcase Stand - \$6.500

A 4m² branded showcase stand strategically located within the exhibition area, providing Smart Innovation Ghana with a dedicated space to demonstrate its innovative technologies, engage with key stakeholders and generate new business opportunities throughout the event.

2 – Technical Workshop - \$8.000

Deliver a 30–45 minute branded technical workshop during the main conference, providing Smart Innovation Ghana with a dedicated platform to showcase its technologies, innovations and expertise to an audience of up to 50 senior industry stakeholders.

The workshop topic and content will be tailored and selected by Smart Innovation Ghana to align with its strategic objectives.

MEDIA, CONTENT & DIGITAL PLAN:

- Dedicated pre-event promotion across the conference website, social media platforms and email campaigns.
- Featured listing on the official event website, conference programme and event app.
- Branded workshop profile with speaker and company information.
- On-site branding and recognition throughout the session.
- Post-event visibility through conference media coverage and digital channels.

3 – Speaking Slot

Dr Sylvester Akpah will be invited to speak on the panel:

“Leveraging Advanced Technologies & AI to Transform Mining Practices for Sustainable Growth.”

This high-level panel will position Smart Innovation Ghana alongside government representatives, mining executives and technology leaders to share practical insights on how AI and digital innovation are transforming Africa's mining industry.

Benefits include:

- Position Smart Innovation Ghana as an industry thought leader.
- Engage directly with mining companies, investors and government decision-makers.
- Showcase innovative solutions to a targeted audience actively seeking technology partners.
- Build valuable business relationships through increased visibility before, during and after the conference.
