DAY 1 | WEDNESDAY 14TH OCTOBER 2026

STRATEGIC TRACK - PANTHER STAGE

08:00 - 09:00

Registration

09:00 - 10:00

Opening Ceremony: Welcome Remarks & Dignitary Addresses

10:00 - 11:00

Ministerial Panel:

Strategic Minerals: Developing a Value Chain that Works for Africa

As the demand for strategic minerals surges, Africa has an opportunity to capture greater value from its resources through investment, infrastructure development and regional collaboration. This discussion explores how cross-border partnerships, local beneficiation and integrated value chains can strengthen Africa's role in global supply chains, driving long-term economic growth.

Moderator: Atul Arya, SVP and Chief Energy Strategist, **S&P Global Energy**

Panellists:

- H.E. Louis Watum Kabamba, Minister of Mines, **DRC**
- Hon. Dr. Polite Kambamura, Minister of Mines and Mining Development, **Zimbabwe**
- Hon. Losuba Ludoru Wongo, Minister of Mining, **South Sudan**
- H.E. R. Matenokay Tingban, Minister of Mines and Energy, **Liberia**
- H.E. Rufin Benam-Beltoungou, Minister of Mines and Geology, **CAR**

11:00 - 11:15

Networking Break & Exhibition Tour

11:15 - 11:20

Keynote Address: Daouda Diakite, Senior Advisor to the Minister, Ministry of Mines and Geology, **Republic of Guinea**

11:20 - 11:25

Keynote Address: Yasser Ramadan, Chairman, **The Egyptian Mineral Resources and Mining Industries Authority (MRMIA)**

11:25 - 12:25

WEST AFRICA SPOTLIGHT- LED BY LIBERIA

12:25 - 13:45

Lunch Break for Speakers and Delegates

13:45 - 14:45

Realigning National and International Goals to Advance Global Investment in Africa's Value Chain

This high-level dialogue examines how African mining nations can attract global investment and forge partnerships across the entire mining value chain. It will explore how public-private collaboration can de-risk projects, mobilise capital, and align international investment with national development priorities, ensuring that foreign interest translates into in-country value addition.

Moderator: Veronica Bolton Smith, CEO and Founder, **CMAG**

Panellists:

- Vibhuti Jain, Regional Head for Africa, **U.S. International Development Finance Corporation**
- Eddy Kioni, Founder and CEO, **Buenessa**
- Folaseto Akin-Olugbade, Investment Director, **Africa50**

DAY 1 | WEDNESDAY 14TH OCTOBER 2026

14:45 - 15:30	Regional Connectivity: Financing Africa's Mineral Infrastructure This discussion addresses rail and port inefficiencies, explores connectivity improvements and how markets can maximise regional corridors to enhance cross-border trade, ensuring the timely delivery of goods. Moderator: TBC Panellists: - Sokwani Chilembo, Chief Executive Officer, Zambia Chamber of Mines - Senior representative, AFC - Simbarashe Chikarango, Head of Project and Infrastructure Finance, Trade Development Bank
15:30 - 16:15	Enabling Africa's Value Addition Corridors Capturing greater value from Africa's mineral resources requires more than processing plants, it requires integrated industrial ecosystems. This session will explore how reliable power, water security, desalination, special economic zones and industrial parks can be developed alongside mineral projects to create competitive processing hubs and attract downstream manufacturing investment.
16:15 - 17:00	Powering Steel & Battery Supply Chains: Investing in Africa's Strategic Minerals As global demand for steel and battery technologies continues to rise, Africa has a significant opportunity to strengthen its position as a leading supplier of the minerals that underpin both industries. This panel will explore the investment, infrastructure and policy interventions needed to accelerate production, expand processing capacity, strengthen regional value chains and position Africa as a competitive supplier to global markets.
17:00	End of Day 1

**S&P Global
Energy**

LEADERSHIP DIALOGUES
HOSTED BY S&P GLOBAL ENERGY
Roundtable Room - Falcon Stage

13:00 - 13:30	CERAWEEK LEADERSHIP CIRCLE BY S&P GLOBAL ENERGY (Invite Only) Africa's critical minerals journey: From resource wealth to industrial powerhouse The next chapter of Africa's mining story may not be about who controls the resource, but who captures the value. This Leadership Circle will examine how Africa can advance beneficiation, develop integrated value chains, create financing and policy conditions, put in place co-ownership models and risk-sharing mechanisms needed to secure its place at the centre of the global critical minerals economy.
15:30 - 16:30	The New Resource Contract: Balancing Sovereignty, Nationalism, and Investor Certainty As global competition for resources intensifies, African governments are increasingly asserting sovereignty over their mineral wealth through export bans, mandated local processing, and increased state equity. While aimed at driving domestic industrialization, sudden policy shifts can deter the foreign capital required to build these projects. This high-level panel brings together mining ministers, investors, and legal experts to explore how to move past adversarial relations. The discussion will focus on designing flexible, win-win fiscal regimes and stable partnership structures that protect national socio-economic interests while providing the regulatory certainty international investors demand. Moderator: Rahul Kapoor, VP, Head of Shipping & Metals, S&P Global Energy

DAY 1 | WEDNESDAY 14TH OCTOBER 2026

INVESTING IN AFRICA'S COPPER FUTURE TECHNICAL TRACK- CHEETAH STAGE

13:15 - 13:45	DRC Country Spotlight
13:45 - 14:15	Attracting the Next Billion-Dollar Copper Investment: Lessons from Leading Jurisdictions
14:15 - 14:45	Creating Value at Home: Advancing Copper Processing and Manufacturing
14:45 - 15:30	Regional Collaboration for a Secure Copper Supply Chain

DAY 2

**THURSDAY
15 OCTOBER
2026**

**DOWNLOAD
APP HERE**

DAY 2 | THURSDAY 15TH OCTOBER 2026

CLOSED DOOR ROUNDTABLE - FALCON STAGE

08:00 - 10:00

Central Bank Governors Roundtable

09:00 - 10:00

Natural Resources Leaders Roundtable Hosted by AMSG

**STRATEGIC TRACK
VENUE - PANTHER STAGE**

10:00 - 10:45

Expanding Africa's Gold Output

As gold prices remain high amid global uncertainty, African producers have a clear opportunity to increase output, boost foreign exchange earnings, and attract sustained investment. This panel will explore how African gold-producing nations and companies can expand output responsibly and optimise existing and new projects.

Moderator: Matt Banton, Head of Mining, **Moore Global**

Panellists:

- Fousseni Tougela, President, **Mali Chamber of Mines**
- Benford Mokoatle, Executive Vice President: South Africa, **Goldfields**

10:45 - 11:30

Unlocking Refining Investment

With the growing desire to move beyond raw mineral extraction towards local beneficiation, this panel explores how governments, financiers and industry players can unlock investment in gold refining by creating transparent regulatory frameworks, mitigation risks. It will also examine how regional cooperation and public-private partnerships can enable competitive and sustainable gold refining hubs across the continent.

Moderator: Rahul Kapoor, VP, Head of Shipping and Metals, **S&P Global Energy**

Panellist:

- Dr. Innocent Matshe Deputy Governor, **Reserve Bank of Zimbabwe**

11:30 - 12:15

Accelerating the Formalisation of ASGM

Presentation: Kwaku Nsiah-Asare, CEO, **Typhoon Greenfield Development LTD**

Artisanal and small-scale gold mining plays a significant role in the development of many African economies, however, the prevalence of illegal mining means that communities often do not fully benefit from production. This panel will explore initiatives to formalise ASGM, combat illegal mining, and ensure that both communities and countries derive sustainable benefits from mineral production.

Moderator: TBC

Panellists:

- Brooke Bibeault, CEO and Director, **Makor Resources**
- Humprey Asiimwe, CEO, **Uganda Chamber of Energy and Minerals**
- Jason Mcpherson, Head: Sourcing and Business Development, **Rand Refinery**

12:15 - 13:15

Lunch for Speakers and Delegates

DAY 2 | THURSDAY 15TH OCTOBER 2026

13:15 - 14:15	SOUTHERN AFRICA SPOTLIGHT- LED BY ANGOLA
14:15 - 14:30	Networking Break
14:30 - 15:15	Leveraging Advanced Technologies & AI to Transform Mining Practices for Sustainable Growth From AI-powered analytics and geomapping to remote sensing, drones and digital mining solutions, advanced technologies are reshaping how mineral resources are discovered, developed and managed. This session will explore how these innovations are improving exploration success, enhancing resource modelling, optimising operational efficiency and supporting safer, more sustainable mining practices. Moderator: William Masson, Associate Director, Mining Economics & Emissions, S&P Global Energy Panellists: • Danie Dörfling, Head of Business Development, Moore Global • Fredric Moinet, COO and Co founder, Geolinks Services • Mfikeyi Makayi, CEO, Kobold Metals
15:15 - 16:00	Accelerating Mineral Production: The Energy, Water & Waste Nexus As demand for critical minerals continues to rise, mining companies face increasing pressure to secure reliable energy, sustainable water supplies, and efficient waste management systems. This session will explore how governments, utilities, infrastructure providers, and mining companies can collaborate to overcome resource constraints, reduce operational risk, and accelerate the production of minerals essential for batteries, energy storage, and low-carbon technologies. Moderator: Ope Osinubi, Senior Associate, Clifford Chance Panellists: • Iyunola Adekanye, Partner, Dentons • Gavin Montgomery, Critical Minerals Market Lead, S&P Global Energy
16:00 - 17:00	EAST AFRICA SPOTLIGHT - LED BY SOUTH SUDAN
17:00	End of Day 2

 NATIONAL MINING COMPANIES FORUM	NATIONAL MINING COMPANY FORUM VENUE: ROUNDTABLE ROOM - FALCON STAGE
10:00 - 10:10	Opening Keynote Address: The Strategic Role of National Mining Companies in Unlocking Africa's Mineral Wealth
10:10 - 11:00	From Mineral Potential to Bankable Projects: Building Investable Pipelines for National Mining Companies This session will explore how NMCs can move beyond raw resource potential to actively prepare bankable project pipelines. Leaders discuss the work required to build bankable projects supported by competent geological data, feasibility studies, clear ownership structures and realistic development timelines.
11:00 - 11:10	Presentation: Legal and Technical Advisory: Developing NMC's into Commercial Institutions

THURSDAY 15TH OCTOBER 2026

NATIONAL MINING COMPANY FORUM VENUE: ROUNDTABLE ROOM - FALCON STAGE

11:10 - 11:35

The Investor's Lens: Capital Readiness and Financing NMC Projects

This session explores innovative financing models, including public-private partnerships (PPPs) and risk-sharing instruments that can secure capital for national mining company (NMC)-led projects. It further examines the requirements that DFIs, Sovereign Wealth Funds, export credit agencies, commercial banks, and strategic investors consider when evaluating investment opportunities.

11:35 - 12:15

Critical Minerals and Regional Value Chains: The Beneficiation Imperative

This session explores how national mining companies can shift from raw extraction to localized processing, capitalize on emerging battery value chains, and use regional cooperation to boost export competitiveness.

VENUE: ROUNDTABLE ROOM - FALCON STAGE

13:15 - 14:00

U.S. - Africa Roundtable

This roundtable convenes US officials, African mining ministers, and mining executives to accelerate US investment in Africa's critical minerals. Amid intense global competition for transition metals, the session focuses on leveraging vehicles like the Minerals Security Partnership (MSP) and the DFC to finance regional infrastructure (such as the Lobito Corridor), support local downstream processing, and establish robust ESG frameworks.

14:00 - 14:45

Saudi Arabia- Africa Roundtable

This high-level roundtable will bring together government officials, national mining companies, investors, and industry leaders to explore opportunities for greater Saudi investment in Africa's mining sector. The discussion will focus on mobilising capital for mineral exploration, project development, and mining infrastructure, while identifying strategic partnerships that can accelerate production, unlock new investment opportunities, and support the sustainable growth of Africa's mineral industry.

DAY 2 | THURSDAY 15TH OCTOBER 2026

TECHNICAL TRACK VENUE - CHEETAH STAGE

10:30 - 11:00

Africa's Pivotal Role in the Global Energy Transition: Market Outlook for Critical Minerals

As the global transition toward clean energy technologies accelerates, securing supply chains for critical minerals has become a paramount economic and geopolitical objective, positioning Africa—with its vast, untapped reserves of lithium, cobalt, copper, and rare earth elements—at the absolute center of this paradigm shift. This presentation provides a comprehensive metals and mining market outlook, examining the shifting supply-demand dynamics, pricing trajectories, and evolving investment landscapes that are shaping these vital commodity markets.

Presenter:

Fernando Araya Burchard, Critical Minerals Lead, **S&P Global Energy**

11:30 - 12:00

Bucking the Trend: Africa's Decade-High Exploration Surge and the Rising Cost of Production

Africa's mining sector is experiencing a divergent reality: surging investment amidst soaring operational expenses. While global exploration budgets declined in 2025, Africa bucked the trend, hitting a decade-high spend concentrated in stable West African gold jurisdictions and the Copperbelt. Simultaneously, the industry faces a structural shift in production economics. Mining costs have surged 40% since 2020 due to deeper deposits, declining ore grades, and persistent inflation. This session will explore how operators are navigating this margin squeeze by optimizing run rates, renegotiating fiscal terms, and deploying capital strategically to unlock the continent's mineral wealth in a permanently higher-cost environment.

Presenter:

William Mason, Associate Director, Mining Economics & Emissions, **S&P Global Energy**

12:15 - 13:15

Lunch for Speakers and Delegates

**AFRICA'S LITHIUM FUTURE: INVESTMENT, VALUE ADDITION
AND INDUSTRIAL GROWTH
VENUE - CHEETAH STAGE**

13:15 - 13:45

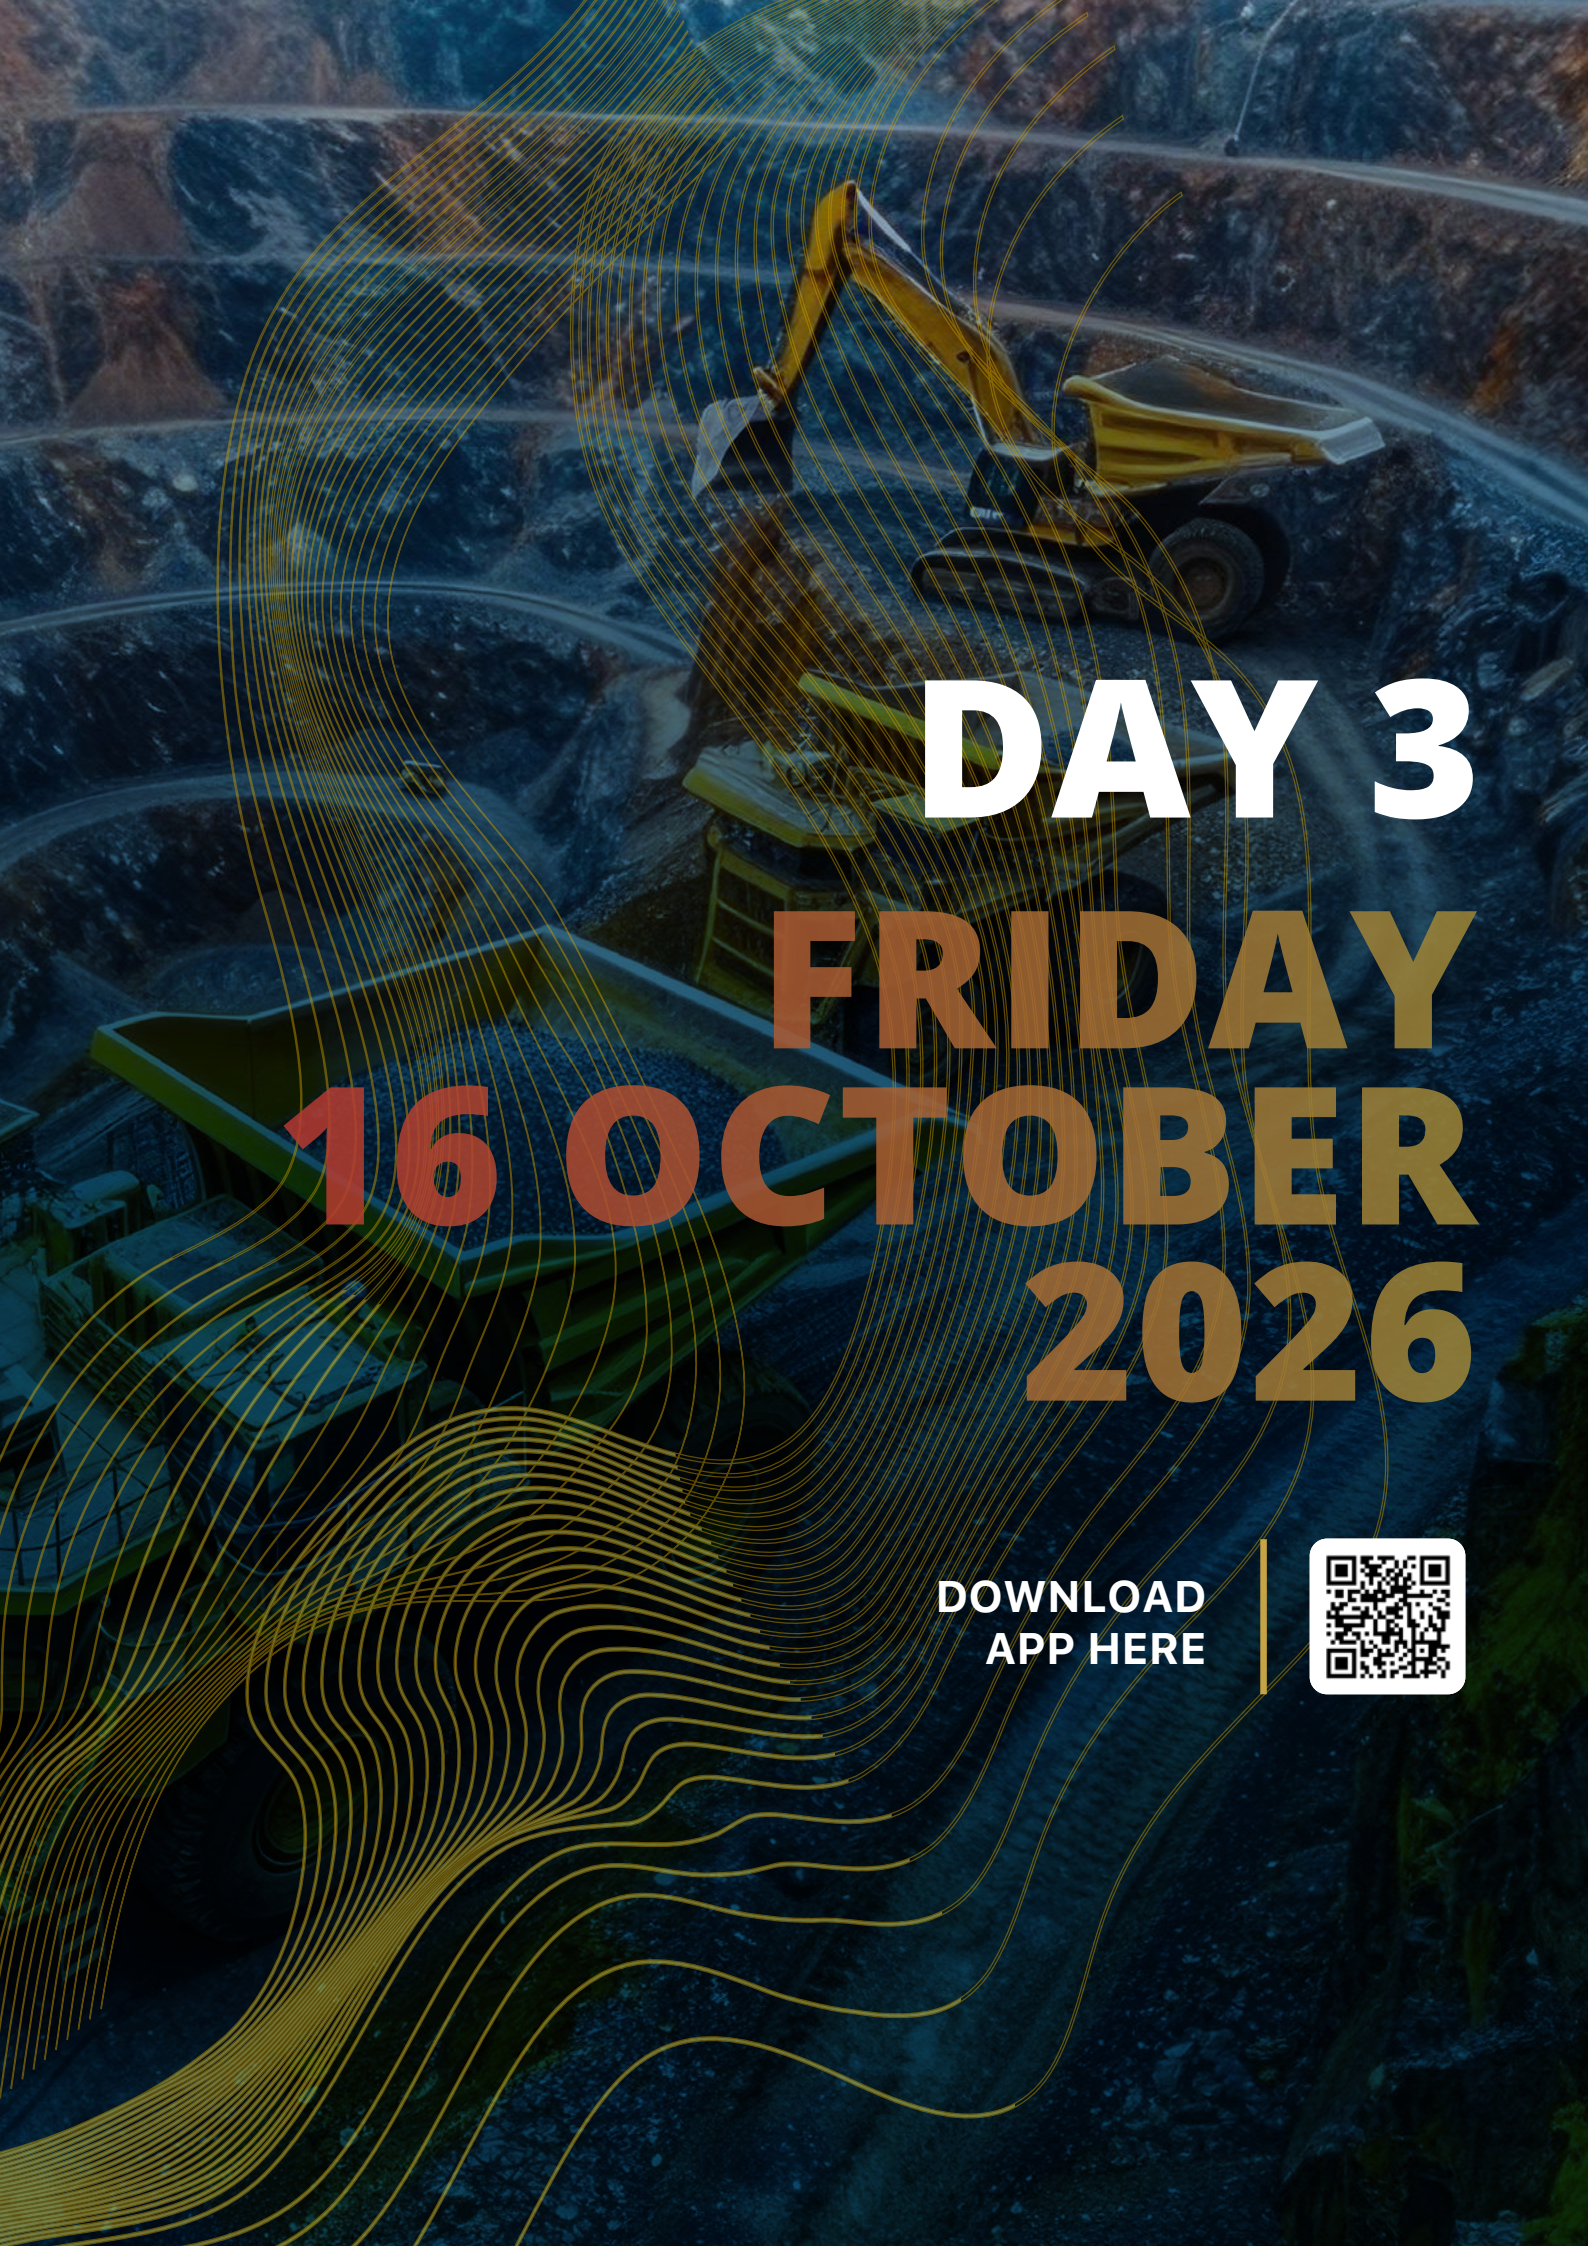

Unlocking Investment in Africa's Lithium Sector

13:45 - 14:15

Moving Beyond Raw Lithium Exports

14:15 - 15:15

From Pit to Grid: Anchoring Africa's Lithium Value Chain in BESS

DAY 3

APP HERE**

DAY 3 | FRIDAY 16TH OCTOBER 2026

**STRATEGIC TRACK
VENUE - CHEETAH STAGE**

09:00 - 09:45

Africa's Mining Opportunity in the Geopolitical Sphere

Disruptions to global shipping routes are directly increasing energy costs, causing a spike in demand for resources such as coal and uranium. This in turn is creating huge prospects for African miners and resource rich countries to attract global capital to unlock their full potential and enhance supply value chains. This panel will explore how African markets are positioning themselves to capitalize on this demand and the strategic investments by global investors across the continent to strengthen their supply chain.

Moderator: Remi Piet, Co-Founder & Senior Partner, **Embellie Advisory**

Panellists:

- Christopher Vandome, Senior Research Fellow, **Chatham House**
- Thomas Rodriguez, Local Content Director & Developer, **CLC Solutions**

09:45 - 10:30

Mineral Security & Strategic Partnerships: Leveraging Africa's Resources for Global Influence and Investment

The global transition to clean energy and advanced technologies has made critical minerals a cornerstone of economic security. As international markets rush to secure stable, resilient supply chains for lithium, cobalt, nickel, and copper, African nations are leveraging their vast resource wealth to demand a shift from raw extraction to domestic processing. The discussion will examine how governments, investors and mining companies can align diplomacy, trade agreements and partnership models such as joint ventures and equity participation to balance national interests with long-term value creation and project bankability.

Moderator: Olivier Barbeau, Managing Partner, **Moore Global**

10:30 - 10:45

Networking Break

10:45 - 11:45

CENTRAL AFRICA SPOTLIGHT- LED BY CENTRAL AFRICAN REPUBLIC

11:45 - 12:30

Collaboration for Growth: Unlocking Finance and Scale for Junior Miners

Junior mining companies face significant financing constraints, from high upfront capital requirements to limited access to infrastructure and technical expertise. This finance-led panel examines innovative funding models, strategic partnerships, and risk-sharing mechanisms that can unlock capital, reduce development costs, and accelerate project delivery.

Moderator: TBC

Panellists:

- Thabiso Sekhano, Head: Mining and Metals, **IDC**
- Deeroosh Maharaj, Executive Head for Energy, Infrastructure & Mining, **Standard Bank**
- Sean Meadon, Technical Director, **Gold Ore**

12:30 - 13:30

Lunch for Speakers and Delegates

DAY 3 | FRIDAY 16TH OCTOBER 2026

13:30 - 14:15

OEMs at the Core: Powering Africa's Next Mining Cycle Through Technology, Equipment & Services

As Africa enters a new era of mineral demand, the role of OEMs within the mining ecosystem is shifting. This panel explores how advanced equipment, digital innovation and specialised technical services are driving greater operational efficiency across the continent.

14:15 - 15:00

Strengthening Local Content in Africa's Mining Supply Chain

This discussion focuses on how mining companies can build strong partnerships with local businesses and integrate local content into its operations. It explores initiatives such as joint ventures, creating procurement opportunities for local companies in the supply chain.

Moderator: TBC

Panellists:

Ileana Ferber, Chief Executive Officer and Founder, **Colibri Business Development**

15:00 - 15:15

Closing Ministerial Fireside Chat
